Words from Jahir Sir

It is really nice to hear that CSE' 12 batch is going to publish a souvenir on the eve of their journey at SUST. I had a great experience with them both in class and out of the classes. The whole batch amazed me a lot. In my 20 years of teaching experience both at SUST and abroad, this batch is one of the best batches in my life. I am confident that all of them will do great in their respective field in future. Usually, in every batch we find few students are doing great in terms of everything. This batch is totally different. Almost all of them are awesome as a human being. I am so proud of you all. I wish your very good luck.

But, I cannot forget one tragic event that happened in that batch. Yes, I am talking about Niloy Md Azam. He was one of my favorite students. He drowned in the university pond. I was the acting Head on that day and I had to inform his parents about this accident. That was the most tragic day in my life and nobody can feel it until you go through it. May Allah forgive him and grant him Jannah.

At last, I would say to my dear students, keep doing the good deeds.

Words from Mahrubia Madam

আমি কি আর লিখতে জানি, তবুও লিখতে হচ্ছে। নতুন করে সুভেনির বের হচ্ছে, বের করছে ২০১২ ব্যাচ। তাদের সব কিছুতেই আশ্রয়, সব কিছুতেই নতুনত্ব। এই সেদিন, চলে যাওয়ার কিছুদিন আগেও রক্তদান কর্মসূচীতে তাদের নেতৃত্ব-মুগ্ধ করে আমাদের। শুধু কি তাই?

সব ব্যাচই কিছু না কিছু করে, ওরাও করেছে। তার উপর সব শিক্ষকের প্রতি ওদের শ্রদ্ধাবোধও একটু বেশি। আমি ওদের দুটি কোর্স নিরেছি। কোন শিক্ষক মাইক্রোপ্রোসেসর নিতে চাইল না দেখে ওটা এসে পড়লো আমার ঘাড়ে মিটিং এ অনুপস্থিত থাকার অপরাধে। ছাত্র জীবনে এই কোর্স আমরা ভাল লাগত না। বুয়েটের একজন শিক্ষক আমাদের পড়াতেন। কেউ বুঝত না, কিন্তু মুগ্ধ চোখে তাকিয়ে থাকত কারন স্যার খুব সুদর্শন ছিলেন। কোর্সটিতে আমি ওদের গিনিপিগ বানিয়েছি আর মনে মনে ভেবেছি -“আহা, আমি ওদের মনের মত করে পড়াতেও পারছি না, আবার আমি স্যারের মতও নই যে ওরা আমার পড়ায় মুগ্ধ হয়ে তাকিয়ে থাকবে।” তবুও তারা মুগ্ধ হয়ে তাকিয়ে থাকার অভিনয় করে, আমাকে হতাশ করে না। তবে আগের কোর্সটা ভাল পড়িয়েছিলাম বলেই হয়ত “কোন টিচারের পড়া তোমাদের ভাল লাগে- সেই অনুযায়ী রেটিং কর” এ ধরনের একটা রেটিংএ ২-৪ এর মধ্যে রেখেছিল আমাকে ৮০% ছাত্রছাত্রী। এতোগুলো সেমিস্টারে এতো শিক্ষকের মধ্যে আমার স্থান ২-৪। কম? উহু। অনেক সম্মানিত স্যারের ও উপরে। এটা কি এমনি এমনি এসেছে? ওরা আমাকে দিয়েছে তাই আমিও দেয়ার চেষ্টা করেছি।

সিএসই পরিবারের ২০১২ ব্যাচ সাকল্যের সাথে বিশ্ববিদ্যালয়ের গতি পেরোচ্ছে, খুবই আনন্দের কথা (দিব্যচক্ষে অনেক মিষ্টি দেখতে পাচ্ছি)। তোমাদেরকে অনেক অনেক অভিনন্দন।

আমি জানি তোমরা সবাই অনেক ভালো ভালো জায়গায় নিজের অবস্থানটুকু নিশ্চিত করে নেবে তাদ্ভুতাই। সাকল্যের পথে ছুটে চলার সময় জীবনের সহজ সাধারণ বিষয়গুলোর মাঝে মিশে থাকা সুখগুলো উপভোগ করতে তুলে যেও না, মাঝে মাঝে চোখ তুলে আকাশের দিকে তাকিও। আর মনে রেখো ভালব্বের একটা শক্তি আছে, এবং সেটা সংক্রমক। ভালব্বের চর্চা করতে হয়- চিন্তা ভাবনায়, চলাফেরায়, কথায় বার্তায়। আমি তোমাদের এইটুকুই বলবো বুকের ভেতর ভালোটুকু পুষে রেখো, ছড়িয়ে দিও।

তোমাদের সঙ্গে নেয়া কোর্সটাতে আমার অনেক স্মৃতি ছিলো- তোমাদের যা পাওয়ার ছিলো তার অনেকটুকুই দিতে পারিনি, সে জন্য আমি আন্তরিক ভাবে দুঃখিত।

সবাই খুব খুব ভালো থেকে, তোমাদের সবার জীবন মঙ্গলময় হোক।

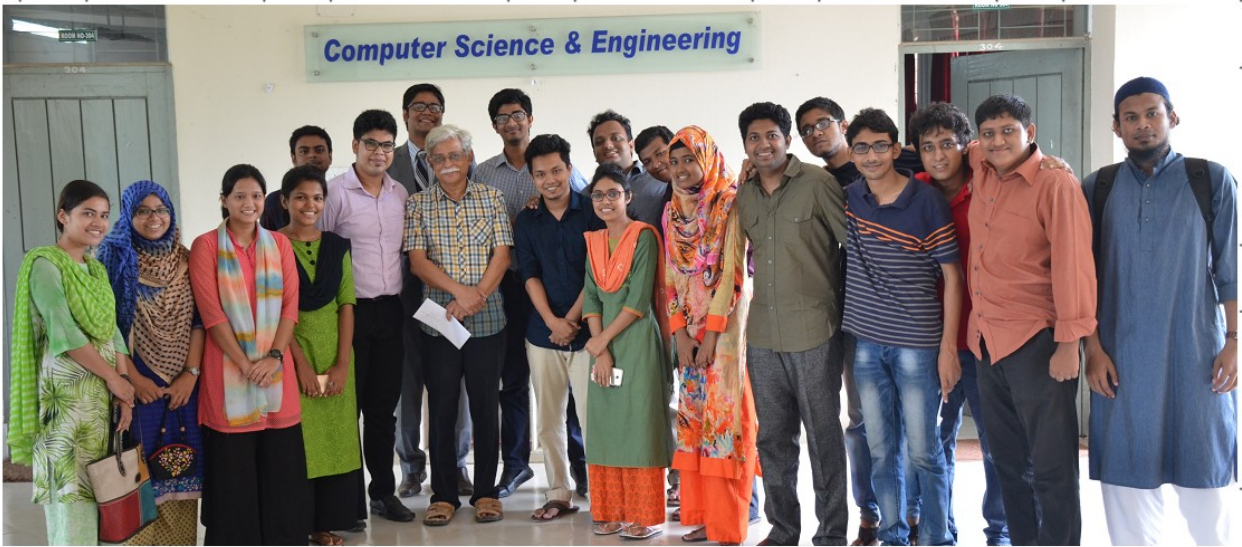

Words from Mahfuz Sir

I'm so happy to learn about your decision of publishing souvenir in this event to make it memorable. I think you're the 21st Batch of CSE, SUST. Although I've not taken any courses with you, but I think I've got enough opportunities to interact with this batch in different events.

You were here for only four and half years. It feels like you've come here a few days ago. But you've passed a great time here. You've learnt a lot within these days. I wish that you all will achieve success using your earned knowledge in your professional life and reach great heights that help you in your career.

You have been an excellent batch and have carried forward the reputation of our department as well as our university by graduating with excellent grades. We have to bid you farewell but the good part is - it is time for you to prove your worth to the world.

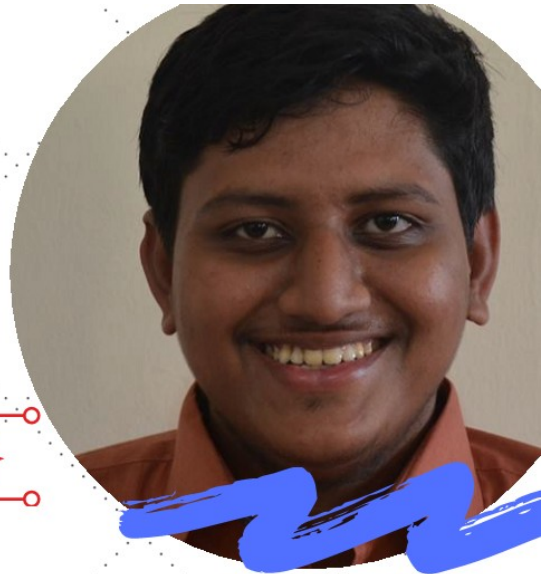

You are the future of our country. I wish you best of luck.

Well, the end of our versity life has finally arrived right ? The last couple of years was the most colorful years of my life where you guys added the color in it. The journey we have been through, on SUST together, I will miss it a lot. Specially the faces I see everyday while walking in and out from the mess, on the classroom, on the laltong or on the adda at robin's shop or at shatkora on 4:00 am; I will definitely miss you guys a lot. Wish you all the best, make some incredible success in your job life and always be happy. Thanks a lot my buddies for making my life more beautiful than ever.

I have to write something about the last five years of my life; about the amazing journey I have been through with some amazing people. These people are my seniors, juniors, teachers and most importantly my friends. I couldn't ever imagine how these five years will become the most important years of my life. It was a wonderful journey with all of you, specially 2012 batch! What I achieved from SUST cannot be described in some words. Well, who can express feelings in words? And this time period of my life is a huge collection of every kind of feeling! I just want to say, I loved my life at SUST and it's a terrible feeling to leave something we love. But for me, what I experienced here will always remain as the most precious memories! And I am really grateful to Allah that these five years happened, that SUST happened to my life!

The most important identity I have earned in SUST is, I am a student of cse 12 batch. After coming and becoming a part of this group, I have met many "Shada Moner Manush". Some are ultra talented, some are super hard working and some have good humor level. There are hundreds of reasons to hate everyone of cse 12. But there are at least millions of reasons why I should love you all. Make a lot a friends in this four and half years. I make sure to give everyone a lot of pain so that they can remember my name. I have made bunches of memories with you all. My memory bag is still half empty. looking forward to make the bag full with all of your co-operation in up coming days.

Happiness!! What is the actual meaning of happiness? I believe happiness is spending some memorable time with some closest people. In that case, I actually have passed a certain period of my life very happily. 4 years and 10 months!!! Gone like a blow. Actually happy moments run away very fast. In that certain period of my life;

SUST CSE'12 was a home out of my home; a family out of my family; a very big family. A family with different faces, a family with different thoughts. When the journey began each and every face was unknown to me.

But day by day all of you became very familiar to me! But now the time has come to leave all! Now everyone will try to beautify their lives. It is obvious that I may never meet many of you in future.

This is the reality! In this heart breaking departure of the members of SUST CSE 2012 batch, I would like to thank you all for giving me some happy and beautiful memories. I have a request to all of you. Please don't forget me... Please.

From my childhood, it was very hard for me to cope up with new people or environment. So, after getting admitted to SUST I was tensed about my upcoming lengthy 4 years without my parents and brothers. But after some days, all of that fear was disappeared. It was possible for all of you, my seniors and other surroundings.

Here I have got the opportunity to meet so many positive, helpful, self-confident, hard working, friendly, productive, responsible, self-satisfied, funny, creative, health conscious, sincere person and learned so many things from all of you. That was so important for me and hopefully, it will help me to be better from the different perspective in future.

It was a beautiful journey. There was so many colorful memory to remember. May be I have passed the best times in my life. I am very thankful for getting all of you as the part of that journey and hopefully, it will be to be continued.....

Best of luck to all of you. Lead a happy life forever.....

It's pretty difficult to express everything in SUST. First of all, I think I'm very lucky having a member of CSE'12. I got family, friends with care, everything! I got chance for being friendly with the environment.

What haven't I do in this life!? Full night adda, full night exploring with buddies in campus, picnic, card games, lanplay, how can I forget!? We're such a family. Besides, I would very grateful to those persons who helped me to pass all critical semifinal exams just before the nights. Adda in cofferaj was also specials with buddies.

In the very last, I want to say something. It'll hurt me if anyone of my family (CSE'12) misunderstand me even for a while. I always wanted, I always want & I'll always want to keep in touch with every member of my family.

Hey, everyone! I don't really know what to talk about here. In past 5 years, I have gone through many emotional and mental changes, so many new experiences. There is so much to remember! Approximately, one-fifth of my entire life is here. I am unable to cope everything in one page. Therefore, I shall speak superficially and express my philosophy.

Sometimes, I like to think of life as an infinite voyage through the passage of time riding on nothing but our body of flesh and blood. Whatever we throw out of this ride will always stay somewhere in this passage of time.

Our deepest desire is to become powerful enough to control the path of this ride. Some try to pick out the smoothest route, some want to produce something big enough to be visible from a long distance (temporal).

Reality has given us many things without ever asking for it, as well as denied of a lot of things we desire. Parents, siblings, classmates are some of such things that we get naturally without having a chance to choose. But eventually, they become an undeniable part of us.

Our life is very short to explore the infinite mysteries of the Universe. In a world filled with 8 billion peoples, the number we get to know in our whole life is very tiny. But this small fraction is what represent and control the pattern of our life. After we disappear from the face of the earth, only this tiny fraction will remember us and keep us alive in their memory.

Not all of us are close to each other equally. But, I am really grateful to get involved in this arduous journey together with every one of you. Please keep me in your memory, good or bad, as I shall keep you in mine as long as my ride has some fuel left in it.

2013-2017 around 5 years, a long time indeed. As well as a great memory of life.

For me, friendship is not a "hi, hello" relation where formal conversation like
thanks/sorry exists. Although I didn't have a good friendship with all members of
our batch, I would expect that friendly behave from all. Because its CSE'12. There
was always faith and reliance in this batch and I belief it'll never be lost.

Nearly 4 and a half years ago I've met a wild pack in an unknown city. Last week when I was looking through the window of ICT Building and enjoying the beautiful dusk lights, I missed everyone of that wild pack. So what happened in the years between that made me feel like that?

Wonderful things happened. Some moments of awesomeness, some instances of strong friendship or a moment of sorrow to be felt together. Those moments are not to be forgotten.

Someday, maybe I'll sit alone and think about those 4 and a half years. I'll remember these moments. I'll remember the walks in the kilo road. I'll remember the sleepless nights of destroying ancients, I'll remember the little hangouts and the long tours. I'll remember the good times we shared together. I'll remember the bad times that made us closer to each other.

The way I was preparing myself for admission it was kind of impossible to get a chance in a better university. I don't know how but here I am. Gratitude to Almighty that I am at one of the prestigious places, majoring CSE at SUST. I learned a lot being here.

Till 2/2 I enjoyed the campus at full scale but somehow after that, I went homebody. CG didn't improve, made less new friends, did very few extra-curricular activities. There is self-accusation for most of the things but life in SUST is vivid & unforgettable.

Like everyone else, I found amazing guys: Seniors, Batchmates. Juniors. They were either creative or skillful at something: I don't music, sing, dance, write, I don't play. I was full zero and still zero. Expertise at nowhere. Yet I survived. Copying assignments, sheets, lab works etc. 'Thanks' is a small word for it. I was loved. You guys love this zero me.

I wanna say I will be highly delighted if I can do something for you in the days to come. Love you, all. Adiós, amigos.

Hello, Everyone! sup?

When I look back to 4 years and 9 months ago, I wonder what might have happened now if I chose another university over SUST. I will never know.

I just know someday thinking about the kilo road, A-building and it's 310 no. room, ACM Lab, EEE lab circuit stuff; Sumon Sir's Class, those floor days, contests, hot summer days of Sylhet with load-shedding, unhealthy oily food of food court and tong, mass education before the exam will bring tears in my eyes. Memories! No matter how hard I try I won't get back those days with all of you guys.

This university blessed me with many friends, teachers, dozens of crushes and zero girl friend. LOL.

For me, it was a bitter-sweet experience but amount of sweet is much higher. Thanks, those who added sweet. And sorry for not being around so much.

In the end, regret is a wrong word to say. I have just spent some best days of my life. No regrets.

May love, luck and happiness always be with all of you.

When I was in the line of subject choice during admission in SUST, I didn't think about anything but friends I will make, classmates I will sit beside and people I will meet here.

From the very day I found myself around tons of different people and quite inferior in the environment. Everyone is so talented, gifted and so cool. Who am I here being a very ordinary, dumb and good for nothing?

Now at the end of this around 5 years journey, I find myself a people person. Life here has given me the most important lesson. Its not about how you are, how talented you are, how smart you are or how successful you are. Its always about the people around you. Life is where you are not alone. You have friends who sit beside you, sing, dance, laugh even cry with you having no idea what they are doing or why they are doing as long as they know they are doing it for you. That is life my friends, together. Its a long journey ahead. I wish you all, the best of luck. Its not the end still, Adios, amigos.

Who you choose to be around you lets you know who you are. If I have to choose, I'd choose you all. Leaving family, home was very hard for me. But I survived and found a new family of 58 members. Not just surviving, I enjoyed the moments: The competitive programming, nights in the ACM lab, orientation floor, quarrel over meal in G-2, Pach-vai after fazr, Short trips with lady squad, Evening spending in front of ladies hall, bashing messmates in group addas (though I was the unfortunate guy most of the times), tour, thesis lab - I will miss all of them. If I live long enough to have grandchildren, I'll tell them the stories of SUST CSE 12, tell them that I'd give all my money to live those moments one more time. But money couldn't buy all these. So I'd just sigh with nostalgia and whisper "Ah! Those days we had!"

I hope it's not the end. May our path cross again, my brothers and sisters. Valar Dohaeris.

PS 1: I was very mean to almost everyone who has come to me with their code. I thought insulting helps them to code better. But I was wrong. A man can only admit when he is wrong and ask forgiveness.

PS 2: If I have to thank only one person among 52, I'd Thank Shakhawat Amin. He was a complete pain the whole time, but he saved my ass once when it is needed the most. Thank you.

SERIOUS!

SUST!!!! What can I say about SUST!! Well, I consider myself lucky to be here. I have lived my life here: My friend circles, late night adda at tongs, adventure to HumHum, pinik moy ratgulo, facing everything together .. um going to miss these badly. I had ups and downs in my life but I really enjoyed my life here. I will also miss my big brothers though I miss them already. My life's best part belong here but I have to leave it behind. Had many things to say but can't find the words. Some things are better unsaid. I just wish that It never had ended.

Actually I never ever dreamed of studying in SUST though I lived in Sylhet but it has really changed my life, gave me a chance to meet with so many wonderful persons. I also got so many chances to enjoy the company of all my classmates on various occasions. To tell the truth I don't know how much all my classmates like me. I may have not passed my varsity life without their help in various projects. Thanks to all of you who have been always there for me. And of all the friends, I may have spent most of time with Bishwa, Tapos, Nebir & Summit. Also I got a very good friend Khyoi as my thesis partner. Love to all Madritistas for all the debates after El-Clasicos. I can't forget the memories I have made at floor in first semester. I especially want to thank all my friends of Uniliver for all the helps and fun. I also want to say sorry to all my Friends because I may have misbehaved with all of you at various time. But believe me, I love you all from my heart. <3

Hi, everyone! It is really tough to sum up the whole varsity life in limited words! Sometimes had to stuck by ups and downs in the campus life. But at this stage, I am grateful to the Almighty for everything, for every moment.

SUST! ❤️ A turning point! It makes me feel what I actually want to do in my life. Somehow my confidence level was about to zero once upon a time and now, at this moment when I have to leave, I am with 100% confidence about my thoughts and destination too 😊 Is it not enough to have to pack up and go? 😊 I think, obviously!

I am always friend-zoned! Be like me 😎 Friends like “amar kichui lage na”, “I am so funny”, “ranna korbo”, “class e jabo na”, “contest ache”, “flexi de”, “achis? Na, nai!”, “more ja”, “chor”, “project partner” ... will be definitely missed! Attachment is not a big deal I think. After this leaving part, “SUST CSE’12 will be a package of inspiration as friends, seniors, juniors and after all human beings with humanity”, I hope and will.

Truth is, “You can never value a moment until it becomes a memory”.

25 November, 10 December & 31 December of 2012 I cannot forget this date because these are behind the scene of beginning at SUST!

Actually, it's not possible to describe my feelings in a page about SUST CSE'12 & SUST life. I can just say with crying eyes that I love you all & miss you all.

I never want to finish this life, but have to face reality. I will miss the classes, projects, project partners. I hardly miss the slow walk in the 1 kilo. I will miss enjoyable winter morning & memorable evening walk.

Last 5 years I try to keep me simple as much as possible because I learn here that simplicity gives inner peace and I want to stay a simple man till the last breath of life.

I know I'm not best with attitude, sometimes rude with you friends. So, I'm sorry for every single wrong step.

I hope we all get in touch in the future and make more memory that we can share with our future generation in our leisure time. Best wishes for all of you.

I thought I would write a thousand lines about my life at SUST. But now it seems so hard. Maybe i can't fill up all those memories at this small boundary of 1000 words! I have spent a large amount of time in this campus, still it feels that i got admitted just yesterday! I remember

A Building, most of my happy memories were in that old small building - at the 2nd floor. I didn't get to spend much time with my classmates - I should have. I will miss attending classes together, tea break at Laal Tong, waiting for our sirs to show our projects! But I will miss the 1 kilo road most. Life will take all of us away from each other, maybe we will meet now & then and hang out. But looking back at my campus days - I know I will feel happy. I love all my friends & I hope the best wishes for you all !

"5 years...."

Yeah! Almost 5 years. This period was very important time of my life. Many beautiful things happened to my life in this period. Coming here, in SUST comes first of them. In my college life I wanted to study EEE. But for some reasons I did not get interest on that in SUST. Then I was little bit confused between CSE and IPE. Finally I was saved! Thanks to Allah, I chose CSE. I have collected many good memories here. It can't be described in this single page. Let them be in my vault: Vault??!! Yeah! That's my mind. I think I had a good relationship with everyone: Among them some were very close. You will be missed. I pray that we all prosper in our life, may Allah fulfill our well wishes, keep us safe and healthy."

Well I guess first I need to apologize to all of my friends because I never was a good friend, still I am not and I don't think I ever will be. I let the ones who loved me down dozens of times. And yet they kept on loving me. I really don't know how to pay you back. Coming here at SUST was one of the loveliest things that had ever happened to me. Here I met with people, people with extra-ordinary talents but most importantly I met with people having extra-ordinary hearts. I really never believed people like you still exist. Maybe I am getting a little emotional but trust me you guys truly deserve all the credits. We live by memories and I guess we all were lucky enough to collect a healthy amount of it which I guess will be enough for a lifetime.

I can't imagine how the next days will be like. May each and every one of SUST CSE 12 batch reach their desired goals. I hope, I do really hope that we stay strong and united as we were in our varsity life. I want to see you becoming leaders, winning Noble prizes, I want to see you at Amazon, at GOOGLE, I want to see my friend's triumph in every field possible. I want my friends to lead the world. But above all I want my friends to be honest, men and women of honour. Be very well my friends. And as usual don't forget to take my love and remember,

We have promises to keep,

I always thought before coming here how my life would be without my family in an unknown place, unknown community. But I never thought it a second time having such a nice batch, department, friends, seniors, best friend, SUST campus, this city of 'rain', mess-life everything, which is a family to me. For the first time I saw, I felt six seasons here consecutively. And my campus life? My Kilo-road? This city on a rainy day? Those can't be expressed in words. People around me, are always nice to me. They really don't know how much I'll miss them. Sometimes I think, I don't deserve these affection, love, respect at all. I've nothing to give them back in my heart. The first-year floor, hanging out wearing a mobile pant instantly, walking in street late-night with Niloy, first love, gossiping whole night in mess, crossing kilo-road with a headphone, teaching of Summit, Moqsad, tong-e adda - many things to miss. My organizations - KIN (especially KIN School Children), RIM all will be the big inspiration for me. My campus life is the best part of my life. I'll definitely come here again and again to feel my past where I did all those crazy things. Thank you all for making my little life fabulous. Have a nice journey ahead. In 5 years of my life many memorable events, issues have happened. Beginning of these years I came to SUST to complete under-graduation in CSE but in that time, I didn't know how to start a computer and operate it. How funny that was! One hope was in mind that I would do this and learn new things. Yes, I have learned many new things.

Being an introvert person, I could not express myself to all. All members of CSE-12 are my good friends and I believe that we are a family. When my friends make fun, gossiping I remain silent and enjoy this moment. I am very sorry if I hurt someone by any of my words or any misbehave.

This campus is just like a heaven to me. I think It is the best place to take a fresh breath and see the beauty of 'ak kilo' whereas path is enclosed by greenery. In the end, i want to say that I love this campus immensely and have passed many beautiful days with all my friends. Now the time-period seems to be very short to me. Good wishes all to be successful in the career.

I am Nebir. I am the real monkey of my class... I will always be on other's mind as my pranks and bluffs (with help from Shantim and Shopon) are legendary...

The way I talk to people with a smile in my face, all the time, is incredible... Even when I was severely sick in hospital and everyone was worried about me, I kept trying to make them laugh despite the physical pain I was facing. I have been very responsible and sensible about our batch from the very first although I am careless about myself. Someone has to talk some sense to me at times.

I was the first successful CR to convince teachers in 1-1. The google SMS saying "class has been cancelled" was my best gift at that time. As a friend, I am a whole package of happiness, fun and madness.

I can remember how much I was happy when I had seen my admission test result. I also can remember the long line of candidates almost everyone was tensed and asking each other "shall I get CSE??" That day was the beginning of the journey and almost five years have passed. Lot of things we have learnt and still learning. We are not here for whole timeline but we were here. Lots of memories, ups and downs. I can mention few of them. Mission Humhum, best adventure of my life then Saint martin tour; Bichanakandi, tour de Sundarban, Lovachora etc. Football was my life in SUST both on and off the pitch. I can remember the hours spending playing FIFA. On the pitch I must mention the name of Sports SUST Champions league, SUST Supercup, minibar tournaments and last but not the least SUST CSE Inter Semester Football Tournaments. Really these memories will stay safe in my heart. I will really miss my classmates, teachers, all the friends, seniors, juniors in SUST. Stay safe, pray for each other and remain connected.

Campus life huh!?
okay...

To be honest, after completing these long 5 (almost!) years, i find that 1st day me and last day me can never relate to each other even a bit. This 5 years taught me getting used to every kind of situations and showed me a whole lot of faces of same personalities and as well.

This is actually the best part of my campus life.

Well, "i will miss everything" is gonna sound too much exaggerated for me. But i will miss some particulars.

I won't turn it to be a boring one.

So Lastly, for everyone, "Be what u meant to be"

Four and a half years at SUST was one heck of an experience for me. I am always happy about deciding to stay here. 50 years later when I will be an old fogey sitting on a rocking chair looking back at my old days, I will remember the days when we used to visit Tila at least once in a week, when we had to share a seat at room no. 310 of A building, our orientation floor, sudden visit to Rosui Ghor, Woondal or any other restaurant,

fun at room no. 335 of 1st ladies hall, 1st departmental tour, looha, the day we got kicked out of IPE workshop for not having an apron and ending up at Chick Chicken, our batch picnic, tour to Lalakhal, Jaflong, Bichanakandi, walk on kilo road, lucky 7 and so on. Suddenly I will find myself smiling with a drop of tear in the corner of my eye and end up looking at the old pictures of my days with SUST CSE Batch of 2012.

Why is it so hard to say goodbye?

Once, when I was four I lost my mom in the mall. I never felt more lost in my life, until now. Adulthood is like losing your mom in the mall, but for the rest of your life.

Even though I've been living on my own for last five years, I kept convincing myself, and everyone around me, that I was not an adult yet. And whenever someone tried to remind me, I had the perfect excuse!

"What do you do?" - I'm a student.

"What do you want to do with your life?" - I'm a student.

"Why do you look like a giant baboon took a dump on you?" - I'm a student.

I know, I know! I was hardly around. In four and a half years, I attended maybe eight classes. But still, it was nice to have the sense of belongingness. To have the illusion of somehow eluding adulthood and all the baggage that comes with it.

Maybe that's why it's so hard. Saying goodbye is to admit, "Okay, this is the end. Gone. Done. Dusted. Puff!". To make things even harder, it makes you realize that you'll forever be the lost kid in the mall.

It all feels so arbitrary. It was just happenstance that I ended up in Sylhet. And through another series of random events, I've met some amazing people, and made some really great friends. Although, to be honest, I never thought I'd miss leaving this part of my life. But humans are weird creature. No matter how we get somewhere or how we end up, we can't help ourselves from getting attached.

Five years ago, this moment felt so far in the future. But the days are long, and years are short. And thus, slowly but suddenly, here we are!

So goodbye friends and strangers! I wish I had the chance to know every one of you. While we'll all be fighting our own battles, may our paths cross someday. Maybe we'll rest our armour for a while and grab some coffee!

Until then,
Live Long And Prosper!

Yes, I am thinking about what i have to write here right now. Storing myself in just 1000 bytes of memory seems pretty interesting. Life, The most mysterious mystery is very mysterious. The life which is very simple is what i live or desire to live. That is how i unwrap the mystery of my life. So far, i have passed 20% of my life with your companionship at SUST. What have i learned? Thanks, a lot indeed, my dear. I have learned a lot about life and philosophy...

Let me share a few of them with you. I do believe in SHARTHOKOTA(what does it call in English?) rather than success. And I strongly believe in three things to be SHARTHOK in life.

Firstly, Relationship - with family, friends, relatives and everyone surrounding myself.

Secondly, Livelihood - sufficient to secure the necessities of life.

And lastly, Altruism. That is the utmost way of making our life SHARTHOK by investing our remaining time and livelihood in altruism.

Life is beautiful but short. Let's make it SHARTHOK.

I'd like to thank my friends who scolded me for missing term tests, missing classes (though I've managed proxies) and tortured me to attend in the next.

With the span of time this dream seemed more beautiful than usual, sometimes a bit harder than reality but hardly felt like I should get it over. But now it is near an end. Looking back, I see people coming with wide hands to embrace me hard, poking and mocking me to death, helping me to overcome bad situations or making me a company to their devilish deeds.

It is also the picture I want to imagine till my last day. The time I passed here with you will be remembered as my best part of life .

At first, I was very confused about coming to SUST. New place and a long way from home, new people. I thought that a varsity is a serious place. people here; always talk about the serious issue. If a person is not smart enough then that person may face difficulty to survive there. As I came from a rural area so it was very hard for me to adjust myself to this new life. Then I meet some awesome people of SUST CSE 2012 batch. They became my friends. Some of them are best friends now. Then I learned how to do something together, how to share. I learned good and bad and funny things. Although I was eagerly waiting for the ending of my graduation but I feel really bad to be separated from all of my friends, seniors and juniors & it's tough to believe that I will hardly meet them. Mrs. Shamim Bhabijaan

SUST CSE 12!!!! All of you are my 2nd family. Because of migration, I've joined later. But it did not take much time to be comfort with you all. I've always found you guys when I need help, suggestions.

You guys were beside me, helped my family when I needed it most. When I was lost, couldn't find what to do, I found you all. I'll not forget what you all did for my brother. I really feel blessed having these amazing friends. I am sorry for my misbehaviour which I had done before because of my high temper. I don't miss my school days, college days, but I'll definitely miss my varsity days. The world is round. We'll meet again in-shaa-allah.

The journey with the SUST CSE
2012 family has been a great
experience to remember my
whole life. Campus and mess life
gave me some great friends and
taught me few real lessons in life.
I hope to see you again in the
near future.

"Some names, unforgettable. Some hands pulling me up, when I tripped over bad times.

That's how I describe SUST CSE '12.

Being here was almost not in my luck. I was in another department. But may Allah bless the inventor of ""Migration System"". I am the last one of these people, may be the worst one too.

I didn't learn coding, algorithm, lot of theoretical shit here. I learned to make a friend, to be a friend.

The Rough path of time separated me from a dearest one. Together, we were the definition of "insane". Rest in peace, wherever you are Niloy.

Maybe we are gonna be separated. But if you are in any urge where I can be of any help, anywhere in the whole universe; make that an excuse to meet me, then meet me.

Love you all.

Allah Hafez"
